

MAGNA CARTA

TECHNICAL SPECIFICATIONS

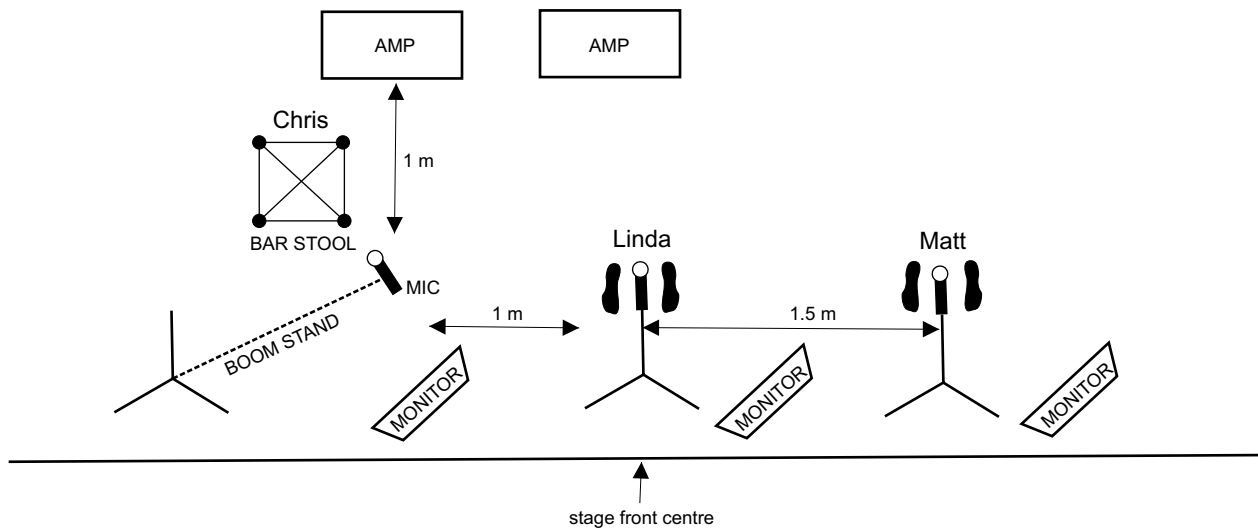

For their guitars, Chris and Linda use two Trace Acoustic TA 100 amps with XLR outputs on the back (no DI boxes needed). They would like two small or one long table (height ca. 70cm) to put the amps on, and a bar stool for Chris to sit on.

Matt uses two LR Baggs DI boxes (which he carries with him) one for violin, one for mandolin. Also needed: three monitors and three microphones with boom stands, for vocals.

There will be a CD with some spoken parts for the song 'The Fields of Eden' so it would be good if you have the technology to play it through the system.

Magna Carta 2007 - subject to change

STAGE PLAN

(This is an approximate plan only)
